## LUTHER C. SHARP PLEADS GUILTY

Butcher Shop Proprietor Enters Plea to "Blind Tiger" Charge and is Sentenced.

GETS 30 DAYS AND \$50 FINE

Speculation as to What is in Store for Eddie Wolters, Indicted on Same Charges.

Luther C. Sharp, owner of a butcher shop in West Second street, appeared before Judge Sparks this afternoon at one o'clock and entered a plea of guilty to the charge of operating a "blind tiger" and received the minimum fine under the law—\$50 and thirty days in jail. Sharp paid the fine and costs amounting to \$60.35, and immediately began his jail sentence.

Two other charges alleging the violation of the liquor laws against Sharp were dismissed. Sharp was warned by Judge Sparks never to engage in the illegal sale of liquor again and pointed out the law on the subject.

Sharp was indicted two weeks ago by the grand jury along with Eddie Wolter. Both were arrested on three charges each and the sudden ending of the Sharp cases have caused a great deal of speculation already as to what is in store for Wolter. The transactions alleged in the indictments were exactly the same and some believe that if Sharp is guilty Wolter will stand very little chance of escaping as the state believes he was implicated with Sharp.

The entrance of the plea of guilty by Sharp came as a surprise, as it was generally understood that he would fight the case. The case against him was set for trial on the second day of the February term and the state fully expected to try the case. The indictment against Sharp charged that the offense was committed on October 24. In order to cover all the violations of the liquor laws the charges were placed in three indictments.

## DIES FROM EFFECTS SLASHING THROAT

Esau Larimore's Suicide Attempt at Glenwood Friday Evening, Results Fatally Today.

WAS VISITING HIS BROTHER

Esau Larimore, age fifty-four, a truck gardener of Columbia township, Fayette county, died at 10:30 o'clock this morning at the home of his brother, Will Larimore, in Glenwood, from the effects of slashing his throat with a razor Friday afternoon about four o'clock. Temporary insanity was given as the cause of Larimore's suicide.

Larimore was a bachelor. He was in Glenwood for a visit with his brother. Friday afternoon he went behind Larimore's store in Glenwood and cut his throat from ear to ear. Larimore was a prominent citizen of Fayette county. Besides his brother in Glenwood, he is survived by a brother in Hart, Indiana.

Miss Katherine Wooden will entertain her Sunday school class of boys with a party tonight, including a visit to the moving picture show.

## PROVISIONS FOR NEW SALEM PUPILS

All But Those of First Five Grades Will Start to School Monday in Improvised Places.

RUINS ARE STILL SMOULDERING

Arrangements were completed today for all but the pupils of the first five rooms of the New Salem school to start to school again Monday after the loss of only one school day, due to the fire early Friday morning which destroyed the modern, new building at a loss of \$27,000.

The high school will be held in the M. P. church and grades six seven and eight, taught by John Moore, will go to the Pinhook school in Noble township. No provisions have been made yet for the first five grades.

The ruins of the school building were still smoldering today. Nothing but sections of the walls are standing. There were fifty tons of coal in the basement and that is still on fire.

## TWO SUITS GROW OUT OF WILL CASE

Plaintiffs, Who Broke Late Nancy Miller's Will Bring Action to Partition Estate.

THE DEFENDANT RETALIATES

The partition suit involving the estate of the late Nancy Miller, and the first court action following the breaking of the will in the Shelby circuit court, came today when Bertha Toyne and Stella Platt, the grandchildren, sued Ida Clingman, Rolla Clingman and Leonidas Mull, administrator of the Nancy Miller estate. Since the will was broken the plaintiffs claim they are the one-fourth owners of 100 acres of land in Walker township and other property that cannot be divided only by sale under the direction of a commissioner appointed by the court.

To offset this suit, Mrs. Clingman filed a claim against the estate amounting to \$4,800. The claim is for services in caring for the late Mrs. Miller, her mother. Mrs. Clingman was the defendant in the will contest suit and the claim would indicate that she is not going to lose any of the estate without a fight. John A. Tittsworth filed the claim and the attorneys bringing the partition action were Kiplinger and Smith of this city, Osborn and Hamilton and Tremain and Turner of Greensburg.

## MAY COMPETE WITH FREE FAIR

Fayette County Exhibition Falls on Same Dates as That of Rush County This Year.

QUESTIONS TO BE SETTLED

Fair Board Will Discuss Possibilities of Avoiding Conflict at Meeting February 7.

The fair board at the meeting to be held February 7th will determine whether the Rush county fair this year will be held the same week as the Fayette county fair. The conflicting dates were discovered following the meeting of the Eastern Indiana circuit, of which the Connersville fair is a member. Both fairs are scheduled for August 22 to 25.

It has been several years since the date of the Rush county fair conflicted with those of the surrounding counties. Under the dates assigned it appears that the Rush county fair will either conflict with Shelby county or Fayette county and the board will have to decide which of these it will be. The Shelby county fair has always followed the Rush county event and the directors there will hardly consent to changing their date.

It is not believed that the directors of the Fayette county fair are in favor of holding the two fairs on the same week and it is possible that an agreement will be reached. One of the officials of the local fair stated today that he believed the Rush county fair could better compete with Fayette county than Shelby, if the local association was compelled to take the date first named.

The local fair formerly was a member of both associations, but last year dropped out of the eastern Indiana circuit when the stake race plan was adopted that would insure a circuit of eight straight weeks of racing. The southeastern circuit is one of the best in the state in that it has eight weeks of continuous meetings and the short distance to ship from one point to another is a great advantage.

It was pointed out today that since so many Rush county people attend the Fayette county fair, that fair could not afford to compete with Rush county. In event that the fairs are held on the same week the attendance at both would most certainly be cut down. The attitude of the Fayette county officials is not known, but it is believed that the difficulty can be adjusted to the best interests of all.

Several members of the fair association here stated that they did not see how Rush county could very well compete with Connersville since the Fayette county fair was a free fair. The opinion was about equally divided, some believing that Connersville should select a new date as the Rush county fair has always been held the last full week in August.

## COMING EVENTS ARE DISCUSSED

Chamber of Commerce Directors Make Final Preparations For Corn Show and Short Course.

A FARMERS' DINNER ALSO

Special Committee is Appointed for Good Factory Proposition Which Has Been Offered Rushville.

A good part of the time of the monthly meeting of the board of directors of the Rush County Chamber of Commerce Friday was devoted to a discussion of the work of the Community Welfare League, recently organized in Indianapolis, with its representative, Dr. John Welsh, but the directors dismissed the proposal for the League to work here without any final action.

Steps will be taken at once to conform with the by-laws regarding the annual meeting of members and the election of a new set of directors. The by-laws say a committee of seven members shall be appointed to nominate the directors to be voted on at the annual meeting, to be held the second Tuesday in February, which this year falls on February 8. Ten directors retire February 8, after having served two years, and ten will be elected to serve in their places. The committee on nominations will be announced in a few days.

The president appointed, on motion of the directors, a committee composed of the president and Wilbur Stiers and Will O. Feudner to investigate a proposition to locate a factory in Rushville. The offer of this particular concern sounded so good that the directors thought it would be wise to make inquiry concerning the assertions made.

Final preparations for the corn show, farmers' short course and farmers' banquet were discussed at length by the directors with the committee chairmen who were present. It was decided to hold the corn show in the sheriff's office in the court house. The date will be next Saturday, January 22, as previously announced and all entries must be made by two o'clock in the afternoon. One of the conditions is that the corn be allowed to remain on display until Wednesday afternoon, January 26 at four o'clock until the short course is over. A corn expert from Purdue university here for the short course will do the scoring. Cash prizes of thirty-five dollars and approximately that amount in merchandise will be offered as prizes.

Great things are expected of the farmers' dinner at the close of the short course which will be fathered by the Chamber of Commerce. The banquet will be given in the Graham Annex auditorium at six o'clock on Wednesday evening. Special committees were appointed last month and have been at work arranging for the banquet.

At the suggestion of the president and on his motion, the directors voted to send the secretary to the annual meeting of the Commercial Club secretaries at Martinsville next Tuesday.

—Joe Turf of Manilla transacted business here today.

—Dave Dancy of Clarksville was in the city today on business.

—John H. Vernon of near Gowdy has gone to Martinsville to take treatment for rheumatism.

—Mrs. P. H. Chadwick went to Pleasant Lake this morning to attend the funeral of Mrs. F. H. Chadwick, which it to be held there on Monday.

(By United Press.)  
New York, Jan. 15.—Every member of the gang of Mexican bandits responsible for the massacre of Americans at Santa Ysabel will be executed immediately upon capture, General Trevino, Carranza commander at Chihuahua, has wired the United Press.

"The punishment to be administered of the culprits in the Santa Ysabel massacre of Americans, I inform you, will be identical with that meted out to Rodriguez and Carlos Almeida. They were made prisoners and shot to death," wired General Trevino.

## AMERICANS FLEE FROM MEXICO TODAY

Threats of Bandits to Exterminate United States Citizens Cause Them to Leave Hurriedly.

SPECIAL TRAIN CARRIES 150

(By United Press.)

El Paso, Jan. 15.—Americans were fleeing from northern Mexico today. Threats of bandits to exterminate the foreigners, the murder of a total of 20 Americans and one Englishman in Shihuahua within the last week and the state department's appeal to Americans to leave troubled districts are having their effect.

A special train sent from El Paso was returning from Parral, a mining town in southern Chihuahua, with about 150 Americans, including many women and children.

DISCUSS PRIMARY LAW.

The Democratic central committee was in session this afternoon in the commissioners' room at the court house. The meeting was called for the purpose of discussing the primary law.

## DAMAGE SUITS MAY NOT BE TRIED

Likely Cases of Mr. and Mrs. Gunning Against Dr. T. C. Waltermire Will be Dismissed.

THEIR ATTORNEYS WITHDRAW

Violet Hendricks is Granted Divorce From Elmer Hendricks—Three Suits Dismissed.

The petit jury will not be needed Monday in circuit court, as originally announced, and according to present plans will report next Saturday. The case set for trial Monday was the damage suit of Alma W. Gunning against Dr. Tell C. Waltermire of Manilla. Events this morning indicated that this suit and a similar suit of Mrs. Gunning's husband, W. R. Gunning, against Waltermire would be dismissed. Kiplinger and Smith and Isaac Carter, attorneys for the Gunnings, withdrew their appearance and without any attorneys the cases will likely not come to trial.

Both cases were for \$5,000 damages for personal injuries alleged to have been sustained in an automobile accident and caused through the negligence of Dr. Waltermire. The disposal, if not the dismissal, of the cases is now expected.

Violet Hendricks was granted a divorce by Judge Sparks from Elmer Hendricks upon payment of the costs. Mrs. Hendricks alleges cruel and inhuman treatment. The court gave her the custody of their minor child until further order of the court.

The case of George C. Schemmel against Francis M. Tague was dismissed by agreement at the costs of the defendant. It was a replevin suit in which the demand was \$25.

The case of the Home Insurance Company against Alva A. Newsom, on notes, demanding \$105, was dismissed and the costs paid. The case of Owen L. Carr against Leslie Alender on a note demanding \$540 was also dismissed and the costs paid.

A motion for a new trial has been filed in the damage suit of John W. Bever against the Indianapolis and Cincinnati Traction company. The motion for a new trial set out that the plaintiff has secured some new evidence which is material to his cause. The motion alleges that the woman who will testify at the trial if a rehearing is granted was ill during the first trial and could not be present. When the case was first heard the jury found for the defendant company.

## First Notes of Spring

Just as we seek the first violet when the snow begins to melt, we look for the first note of spring fashions as soon as Christmas is passed.

We are a restless people and fashion is ever plunging ahead.

The merchants vie with each other to catch the first authentic note.

There is keen rivalry to be first to show the new.

Competition, they say, is the life of trade, and certainly it is the inspiration of some mighty good advertising these days.

Just look through the columns of The Daily Republican and note how alert our merchants and manufacturers are.

Every line of the advertising reflects the desire to gain your trade by serving you better.

**Amianthine Cloth.**  
The finest variety of asbestos is known as amianthus, and the most beautiful specimens of this come from Tarentaise, in Savoy. Hence the fabric woven from asbestos is sometimes known as amianthine cloth. **Mother Carey's Chickens.**  
"Mother Carey's chickens" is a nautical name for stormy petrels, those tiny, webfooted birds which sailors regard with such awe. When a storm is imminent they collect under the stern of a ship, and superstitious seamen believe they follow vessels with the intention of picking up the souls of wrecked sailors and carrying them to heaven.

HOW TO SELL THINGS THAT ARE "FOR SALE"

Write your "For Sale" ad SIMPLY stating every detail about the article that you would want an ad to give if you were anxious to buy something of the kind yourself. Give a little thought to the "selling points" about the article, and put THEM into your ad. Then run the ad MORE THAN ONCE, if that is necessary. It may or may not be.

**Buy Advertised Brands — They're Best**  
"Trade-marked" articles—things sold by NAME or DISTINGUISHING and IDENTIFYING BRANDS—must be kept at the highest standard of quality. The VALUE must never vary. For a maker to "cheapen" such an article would be to throw away the prestige he had fought so hard, and advertised so effectively, to gain.

## Things You Don't Know.

We of today often admire the knowledge displayed by our friends and our neighbors, and occasionally we may entertain a slight conception of that which we ourselves possess.

But we are not prone to speak of or to admit of these things that we don't know.

For instance--

You don't know when the war will end.

You don't know which side will be the victors.

You don't know what conditions will prevail in Europe after it is ended. You may surmise, but you don't know.

You don't know what effect it will have on this country when Europe gets down to business again.

You don't know whether the end of this year will mark the beginning of a world peace, or whether it is but the forerunner of a greater and more devastating conflict which will be waged between the old world and the new--between a combination of European nations on the one side, and North, Central and South America on the other.

You don't know, in the event of such a war, whether the Americans would continue to be free and self-

governed countries, whether they would become mere overseas possessions of the kings and emperors of the old world. You may poo hoo, and swell out your chest, and let the eagle scream but you don't know. You don't know what congress will do in the matter of preparedness for this country. You don't know whether it will do anything at all or not--for, truth to tell, congress is all muddled up and don't know itself for it don't know what you think or what you know.

Fact is we don't imagine any of us know much of anything about this phase of our national existence, for we have been too busy grubbing for dollars to give much heed to the present of future welfare of our country.

And, too, we don't know what the penalty of our indifference and neglect is going to be.

If men's shadows were X-ray photographs--Phew! What would everybody think of everybody else!

The fellow who hides his light under a bushel is putting the bushel to poor use.

Kick yourself as much as you like, but never let the other fellow do the kicking.

Hail to the fellow who remembers to hail as

Another week's sins to answer for.

## REPLY IS REPRISAL THREAT

(By United Press.)

Berlin, (Via Sayville,) Jan. 15.—The German government today rejected the suggestion made by Sir Edward Grey, British foreign minister, that the Baralong case, in which officers of a British steamer were accused of the murder of a German submarine crew, be submitted to an investigation by a court of American naval officers.

The text of the German note transmitted to Great Britain through the American embassy was made public here today. It denied British charges that German soldiers and sailors have been guilty of inhuman practices and informs Great Britain that Germany will adopt methods of reprisal for the alleged cold blooded slaying of the German submarine crew.

## HOUSE WILL TELL EUROPE OUR VIEWS

Goes as Wilson's Voice to Promote Better Understanding.

## NOT ON MISSION OF PEACE

Nor Will He Reprimand Any Diplomats or Intrude in Their Fields of Activity. Foreign Leaders Acquainted With Purpose of His Visit Eager to Meet Him.

Colonel Edward Mandell House is off for Europe for a visit of six weeks or two months in London, Paris and Berlin. He goes as the representative of President Wilson, and as such he will visit both the American embassies in those cities and the statesmen at the head of affairs in all three nations.

Many reports have been printed concerning the object of his trip, but the following facts are said to be most authentic:

Colonel House's mission has only one purpose, and it is not to sound the nations on the subject of peace, to interfere in whatever bickerings there may be among American diplomats, to stir up the Lusitania case or to do any of the various things with which he has been credited. His mission is the first step in an attempt at a better and closer understanding between the European nations and this country, to the end that misapprehension of our attitude and views and actions may be measurably avoided in the future.

That the need for such a mission or for some other step to bring about such an understanding was felt in Berlin as well as in Washington was strikingly shown in a Berlin dispatch of Dec. 20, in which these expressions appeared:

An American in Germany is soon aware that the obstacles in the way of mutual understanding between the two nations are, in the first place, those of feeling, and secondly, those of facts. \* \* \* If the German government could speak directly to the American government alone, out of the hearing of the rest of the world, \* \* \* much misconception on both sides could perhaps be avoided. \* \* \* It would be hard to say at this moment whether Germany misconceives the American mind more than the United States misconceives the German mind.

## Conditions Same in England.

What is true of Germany is true in a different way of the allied powers, in spite of the fact that they have greater freedom of communication than the fortune of war has given to Germany. Not from our ambassadors can they get the full American viewpoint, because our ambassadors are themselves out of touch with what is going on here and with the fluctuations and changes in American sentiment necessarily produced by the constantly shifting events of the war.

In the dispatch already quoted the author spoke of what could be done if there could be "an exchange between the at once high and special powers." The mission of Colonel House comes as near being that as is possible. There cannot very well be a conversation between the president and the kaiser, but Colonel House's visit to the German foreign office will be the next thing to it.

It is important, however, to keep clear from the idea that Germany is the special object of Colonel House's journey. It is nothing of the kind, and it would be well within bounds to say that his visit to London and to Paris is even more important in the president's mind than that to Berlin in the way of giving needed information and setting the scenes right for future dealings.

## Not to Reprimand Diplomats.

All reports that Colonel House is going abroad to reprimand ambassadors for alleged failings are made out of whole cloth. The president does not regard it as due to any fault of these diplomats that they are out of touch with feeling in their own country. It is, he holds, the natural and inevitable result of their being away from the place where that feeling exists and due to no other cause. Even a month's absence makes a man lose touch, and these ambassadors have been away from one to two years.

Colonel House himself has been heard to say that when he last went abroad he stayed four months and was astonished on his return to find that he had himself grown out of touch with American feeling, and this is the reason why he has determined to make a shorter stay this time. He intends to stay only six weeks and certainly will not stay longer than two months. If even he noticed this difference in himself in so short a stay as four months the president believes that no ambassador is blameworthy for showing the effects of the same thing after an absence of two years.

## LIMBURGER CUTS DEATH RATE

Wisconsin Physician Finds Eating of Famous Cheese Healthful.

Physicians of Green county, Wis., which had the lowest death rate in that state last summer, attribute the healthy condition of the community to the eating of Limburger cheese.

Last year 3,041,465 pounds of this cheese were produced in the county, and as a staple of food it largely displaced meat.

The quarterly report of the state board of health, just issued, gave Green county a death rate of 7.2 per thousand compared with 9.2 for the state at large.

## GRAY OPPOSES DEFENSE PLANS

Sixth District Representative Shifts Position Since Recent Promise to Support Wilson.

OLD PLEDGE PIGEON-HOLED

Richmond, Ind., January 15.—A Washington newspaper dispatch contains the information that Representative Finly H. Gray of the Sixth Indiana district is again out of harmony with the views of his constituents and the policy of the national administration on the question of preparedness for national defense. Gray announced his opposition to the construction of more large first-line-of-battleships. He is a member of the house naval affairs committee and from the first has advocated a "little" navy program although recently, under pressure from his constituency, pledged support to the Wilson naval program calling for two dreadnaughts, two battle cruisers and a number of submarines, to be constructed this year. Apparently he has now pigeon-holed this pledge.

# Why the German Fleet Does Not Come Out and Fight

The taunts of the English press about the inactivity of the German fleet seem to have aroused the German editors to set before the people of the Fatherland the work which the Kaiser's battleships have done, and are doing, in the war. Three of the most influential papers in Germany have simultaneously devoted no small amount of space to "special reports from the High Sea Fleet."

In THE LITERARY DIGEST for January 15th is printed translations of the most significant parts of these reports. The article is illustrated by a photographic reproduction of a painting made for the foremost illustrated paper in Germany "To Show Patriotic Germans a British Cruiser in Flight." These articles in this issue of "The Digest," also hold great interest for the American public:

## SAY THEY GOT RAW DEAL AT BROOKVILLE

High School Basketball Team Declares Whistle in Audience Was Confused With Referee's.

### LOSES BY A NARROW MARGIN

The local basketball team was defeated at Brookville last night by a score of 33 to 31. The game was one of the fastest ever played on the Brookville floor and while the Rushville team is not crying over the loss of the game, the entire team claims a raw deal on the part of the officials. Several alibis have been offered by the locals. The best one is that there was a whistle in the audience that was confused with the one held by the referee and every time this whistle was blown the local players would stop, and then Brookville would score.

The locals led at the end of the first half by a score of 22 to 17, and maintained this lead up until about three minutes to play. All through the last half Rushville was six points to the good and a little raw work is said to have beaten the team out of all chances to tie the score or win the game. Martin and Caron played well for Rushville. Caron was put out of the game after five personal fouls were called on him.

## MOST MURDEROUS CITY IS MEMPHIS

Leads All the World in Number of Homicides.

63.7 SLAIN IN EVERY 100,000

Seven Southern Towns Hold Unenviable Record of Heading the List. Charleston, Savannah, Atlanta, New Orleans, Nashville and Louisville Follow in Order Named.

The most "murderous" city in all the United States is Memphis, Tenn., where 63.7 persons out of every 100,000 lose their lives by violence, according to statistics for the decade 1904-1913, prepared by the Spectator, an insurance journal, in an article on the "Homicide Record of 1914."

Six other southern cities hold records for "killings," while New York city—Manhattan and the Bronx—with its enormous population, is a peaceful, law abiding place, ranking only sixteenth out of the thirty registration cities used.

Murder is not only increasing at an alarming rate throughout the country, but statistics show that the predominant method in American murders is by firearms.

A state of lawlessness and indifference to human life is shown in Tennessee, South Carolina, Georgia, Louisiana and Kentucky. The seven principal cities in these states have the unenviable record of leading the thirty American cities used as a registration area for the country.

### Cities' Comparative Record.

The thirty cities, arranged in the order of "killings," together with the rate per 100,000 of population, are:

Memphis, 63.7; Charleston, S. C., 32.7; Savannah, 28.4; Atlanta, 26; New Orleans, 25.3; Nashville, 24.3; Louisville, 16.6; St. Louis, 12.9; San Francisco, 11.8; Cincinnati, 11; Chicago, 9.3; Seattle, 8.1; Spokane, 7.8; Washington, 7.5; Cleveland, 6.1; Manhattan and the Bronx, New York, 6.1; Dayton, O., 5.5; Pittsburgh, 5.3; Providence, 5.2; Boston, 4.8; Baltimore, 4.6; Brooklyn, 4.5; Philadelphia, 4.2; Buffalo, 4; Minneapolis, 3.7; Reading, Pa., 3.5; Rochester, N. Y., 3.3; Hartford, Conn., 3; Newark, N. J., 3; Milwaukee, 2.4.

There were 11,981 homicides in the thirty cities for the decade, or an average of 7.9 per 100,000 of population for the whole area. The figures for 1914 show 1,489 murders for the same area, at the rate of 8.6 per 100,000 population, which, if continued for ten years, would make the total for the decade 14,890.

Assuming that the recorded murder death rate for the registration area may be safely applied to the whole country, more than 50,000 human lives have been deliberately sacrificed. The increase in murder during 1914 as compared with the ten years ending 1913 was most marked on the Pacific coast and in the southern states, the latter having always led.

The eastern cities show the murder of 4.9 persons out of every 100,000 population for 1904-13 and 5.1 persons for 1914; the central cities show 8.6 and in 1914 9.3, and the southern cities 18.2 for the 1904-13 decade, and 20.4 for the year 1914, and Pacific coast cities 10, and an increase to 12.8 for 1914.

### Firearms Chief Weapon.

Among males 62.3 per cent of the deaths were caused by firearms and among females 52.2 per cent, while cutting or piercing instruments caused 15.7 per cent and among females 12.7 per cent of the deaths. The mortality was highest between the ages of twenty-five and thirty-four years.

The reason for the increase in murder is given as the inadequacy of laws regarding deadly weapons.

"The means of murder are entirely too convenient," says the Spectator. "The pistol carrying habit in many sections of the country is an evil of the first importance."

The number of murders in the United States is about 100 for every 13 committed in England and Wales, 30 in Australia, 31 in Prussia and 56 in Italy.

### POLAND'S PLIGHT WORST.

4,500,000 Refugees Living in Holes and in Trees.

After inspecting all the countries in Europe that have suffered through the war on behalf of the committee of mercy W. H. Hamilton of New York says that Poland was in the worst plight by far.

"There is not a building standing intact," he said, "along the Russian lines of retreat. They even tore down the side of the cathedral in Warsaw to get out the bells to make ammunition with. When I was in Warsaw I saw 1,500 old men, women and children standing in a bread line with the temperature below zero to get the daily ration of a bowl of carrot soup and a quarter of a pound of bread. Many of them were shoeless and their feet were frozen so that they could barely move on them. The women had torn up their clothing to wrap round the feet of their children."

"There are 175,000 refugees in Warsaw and 4,500,000 altogether in Poland who are living chiefly in holes dug in the ground and in the trees in the forests."

## DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

## CHURCH CHOIR BANQUET.

The cold wave that has had Rushville in its grip for the last two days had nothing on the members of the First Presbyterian church choir last night. As everyone knows the choir always delights lovers of good music with its programs, and it was decided to effect a permanent organization. As a means to an end, preparations were made to give the choir a dinner and an evening of mirth and jollity. Last night marked the culmination of the plans and covers were laid for thirty-six in the spacious dining room in the church basement. Promptly at half-past o'clock, Dr. D. Ira Lambert invoked the blessings upon the festal board and the merry party enjoyed a repast that reflected credit upon the ladies to whom was given the responsibility for its preparation. It was not just an ordinary collation, savoring of lunch or sandwiches, but an elaborate, bountiful dinner.

At the close Dr. Lambert was presented by the genial toastmaster, and in a very felicitous manner the pastor spoke on the good of such meetings and took occasion to express his thanks to the choir for what he said had been an inspiration to him in his pulpit labors. He prophesied even greater efforts on the part of the choir.

Dr. Barrington was called for, and spoke on the function of the banquet, dwelling especially upon the want of dignity that happily characterizes such events, illustrating his point with an amusing story of the pompous preacher whose vanity received a sudden and effectual check.

Mr. Trusler followed in his usual effective style, and spoke at length upon the necessity of organization in matters of church music. A permanent organization was made with B. O. Simpson, president, and Mrs. Simpson as secretary-treasurer. Dr. Barrington was made choir director and some twenty-five members of the choir pledged their loyalty to the new musical society, hereafter to be

known as the Rushville Choral Club. Arrangements will be made for the putting on of a most elaborate cantata for Easter and the public is promised something not seen or heard in Rushville. The beautiful production of Geibel's entitled "Light Out of Darkness" will be presented for the first time in Rushville on the night of April 23, and those who love artistic, spiritual music will have an opportunity of listening for one hour to a musical gem.

Much of the credit of the culinary success of the evening was due to the capable church workers, Mrs. B. O. Simpson, Mrs. E. W. Barrington and Mrs. Floyd Hogsett.

Reports as to the number dead ran as high as five. Many were injured. Officers declared that it would be impossible to determine the actual casualties for some time. Some of the men lifted from the submarine appeared to be dead when carried out, it was stated.

A defective battery is believed to have been the cause of the explosion.

## Home of the Chinchilla.

The chinchilla, a little animal the size of a squirrel, is met with only in the Andes of Bolivia, Ecuador, Peru and northern Chile and is never found under a height of 9,000 or 10,000 feet. The Indians are eager trappers and hunters of it for its fine fur. The skins are well seasoned with salt and made up into small packages for dispatch to the towns, whence they are shipped abroad.

## Young Girls and the Stage.

Mrs. De Navarro, formerly Mary Anderson, our beloved actress, receives deluges of mail from all parts of the world asking her advice to young girls who would go on the stage. # Stammerers Know This To Be True

STAMMERERS know how it feels to be regarded as "different" from other people—and to be laughed at. They know that their affliction sets them apart from all others who are normal. They know that stammering is a handicap which prevents their greatest success in business or their active participation in social affairs.

Stammerers know this to be true—but most stammerers are just finding out that they can be permanently freed from stammering—that it is no longer necessary to be burdened with such an affliction. Benjamin N. Bogue, founder and president of the Bogue Institute for Stammerers, was a stammerer for twenty years before, by study and patient work, he found the way to free himself. He had the same experience you are now having. It was necessary in his case, because there was no one then who knew how stammering could be stopped. But today, and in your case, it is absolutely unnecessary—for the one definite and proved way of stopping stammering is known and being successfully used every day at the Bogue Institute.

On page five of the seventy-page book pictured below, you will find the beginning of Mr. Bogue's story of his own experiences, and how he restored himself to perfect speech. And you will see that this is the method which he now offers you—a method which has restored perfect speech to hundreds of stammerers in all parts of the country.

Pages forty to forty-four of this book tell what other students have accomplished at the Bogue Institute—of renewed happiness—of achievements in business and society that were previously impossible.

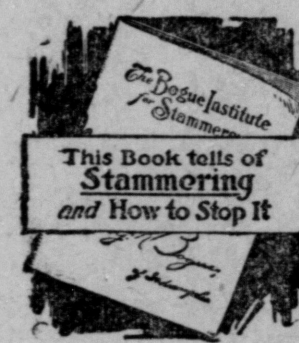

The results of stammering are shown, beginning on page twenty-two. On page sixteen you will find an explanation of the causes of stammering, and beginning on page thirty-one a discussion of the methods used at the Bogue Institute. You will also be interested in page thirty-eight, which shows how thoroughly the Institute protects the interests of its students. Persons under eight years of age, and those not of normal intelligence, are not accepted as students. The book will explain the reasons for this very fully. Write your name and address in the coupon below and mail it today to the Institute. The book (70) seventy pages will be sent to you promptly without cost.

No tax receipts will be held out until taxes are paid in full.

## Extracts From the Statutes of Indiana.

That each person or taxpayer charged with taxes on a duplicate in the hands of a County Treasurer may pay the full amount of such taxes on or before the first Monday in May, or may at his option, pay one-half thereof on or before the first Monday in May, and the remaining half on or before the first Monday in November, in the manner prescribed by law. All road taxes to be added to the first installment.

When the first installment is not paid prior to the first Monday in May, the taxes for the whole year become delinquent.

The Treasurer will not be responsible for the penalty and charges on Delinquent Taxes resulting from any omission of the person paying to state definitely on what property, in whose name and in what township or corporation it was assessed.

Persons owing Delinquent Taxes should pay them at once. The late law is of such character that there is no option left the Treasurer but to enforce the collection of delinquent taxes, however much he may regret to collect the same, by sale of property.

The owner of the property on the first day of March in any year, shall be liable for the payment of all taxes of that year. The purchaser of property on the first day of March shall be considered as owner on that day.—Sec. 103.

All property, both personal and real, situated in any county, shall be liable for the taxes, penalties, interests, and costs to the owners thereof, in such county, and no partial payment of such taxes, penalties, interests or costs shall discharge or release any part or portion of such property until the whole be paid; which lien shall in no wise be affected or destroyed by any sale or transfer of any such personal property.—Sec. 644, R. S.

The Treasurer has no option in rebating the penalty on taxes allowed to go delinquent. Taxpayers are particularly notified that all Road Tax is due and payable with the first installment. No County Orders will be paid to persons owing delinquent taxes and all parties are warned against buying the same. The Annual Sale of Delinquent Lands and Lots will take place on the Second Monday in February, 1916.

## PARTICULAR ATTENTION

TAXPAYERS SHOULD EXAMINE THEIR RECEIPTS before leaving the Treasurer's Office, and see that they are correct. Those who have lands or other property in more than one township, must see that they have a receipts for all.

J. O. WILLIAMS,  
Treasurer of Rush County.

Rushville, Indiana, January 1st, 1916.

## AUDITOR'S SPECIAL NOTICE

Parties having School Fund Loans on which interest is delinquent will please give the payment of said interest their attention before March 1st, as the law requires the prompt collection of said interest.

## LUTHER C. SHARP PLEADS GUILTY

Butcher Shop Proprietor Enters Plea to "Blind Tiger" Charge and is Sentenced.

GETS 30 DAYS AND \$50 FINE

Speculation as to What is in Store for Eddie Walters, Indicted on Same Charges.

Luther C. Sharp, owner of a butcher shop in West Second street, appeared before Judge Sparks this afternoon at one o'clock and entered a plea of guilty to the charge of operating a "blind tiger" and received the minimum fine under the law—\$50 and thirty days in jail. Sharp paid the fine and costs amounting to \$60.35, and immediately began his jail sentence.

Two other charges alleging the violation of the liquor laws against Sharp were dismissed. Sharp was warned by Judge Sparks never to engage in the illegal sale of liquor again and pointed out the law on the subject.

Sharp was indicted two weeks ago by the grand jury along with Eddie Walters. Both were arrested on three charges each and the sudden ending of the Sharp cases have caused a great deal of speculation already as to what is in store for Walters. The transactions alleged in the indictments were exactly the same and some believe that if Sharp is guilty Walters will stand very little chance of escaping as the state believes he was implicated with Sharp.

The entrance of the plea of guilty by Sharp came as a surprise, as it was generally understood that he would fight the case. The case against him was set for trial on the second day of the February term and the state fully expected to try the case. The indictment against Sharp charged that the offense was committed on October 24. In order to cover all the violations of the liquor laws the charges were placed in three indictments.

## DIES FROM EFFECTS SLASHING THROAT

Esau Larimore's Suicide Attempt at Glenwood Friday Evening, Results Fatally Today.

WAS VISITING HIS BROTHER

Esau Larimore, age fifty-four, a truck gardener of Columbia township, Fayette county, died at 10:30 o'clock this morning at the home of his brother, Will Larimore, in Glenwood, from the effects of slashing his throat with a razor Friday afternoon about four o'clock. Temporary insanity was given as the cause of Larimore's suicide.

Larimore was a bachelor. He was in Glenwood for a visit with his brother. Friday afternoon he went behind Larimore's store in Glenwood and cut his throat from ear to ear. Larimore was a prominent citizen of Fayette county. Besides his brother in Glenwood, he is survived by a brother in Hart, Indiana.

Miss Katherine Wooden will entertain her Sunday school class of boys with a party tonight, including a visit to the moving picture show.

According to the complaint, they were married May 6, 1912, and separated July 24, 1915, at which time she alleges that he abandoned her without cause. ## PROVISIONS FOR NEW SALEM PUPILS

All But Those of First Five Grades Will Start to School Monday in Improvised Places.

RUINS ARE STILL SMOULDERING

Arrangements were completed today for all but the pupils of the first five rooms of the New Salem school to start to school again Monday after the loss of only one school day, due to the fire early Friday morning which destroyed the modern, new building at a loss of \$27,000.

The high school will be held in the M. P. church and grades six, seven and eight, taught by John Moore, will go to the Pinhook school in Noble township. No provisions have been made yet for the first five grades.

The ruins of the school building were still smoldering today. Nothing but sections of the walls are standing. There were fifty tons of coal in the basement and that is still on fire.

## TWO SUITS GROW OUT OF WILL CASE

Plaintiffs Who Broke Late Nancy Miller's Will Bring Action to Partition Estate.

THE DEFENDANT RETALIATES

The partition suit involving the estate of the late Nancy Miller, and the first court action following the breaking of the will in the Shelby circuit court, came today when Bertha Toynes and Stella Platt, the grandchildren, sued Ida Clingman, Rolla Clingman and Leonidas Mull, administrator of the Nancy Miller estate. Since the will was broken the plaintiffs claim they are the one-fourth owners of 100 acres of land in Walker township and other property that cannot be divided only by sale under the direction of a commissioner appointed by the court.

To offset this suit, Mrs. Clingman filed a claim against the estate amounting to \$4,800. The claim is for services in caring for the late Mrs. Miller, her mother. Mrs. Clingman was the defendant in the will contest suit and the claim would indicate that she is not going to lose any of the estate without a fight. John A. Tittsworth filed the claim and the attorneys bringing the partition action were Kiplinger and Smith of this city, Osborn and Hamilton and Tremain and Turner of Greensburg.

## MAY COMPETE WITH FREE FAIR

Fayette County Exhibition Falls on Same Dates as That of Rush County This Year.

QUESTIONS TO BE SETTLED

Fair Board Will Discuss Possibilities of Avoiding Conflict at Meeting February 7.

The fair board at the meeting to be held February 7th will determine whether the Rush county fair this year will be held the same week as the Fayette county fair. The conflicting dates were discovered following the meeting of the Eastern Indiana circuit, of which the Connersville fair is a member. Both fairs are scheduled for August 22 to 25.

It has been several years since the date of the Rush county fair conflicted with those of the surrounding counties. Under the dates assigned it appears that the Rush county fair will either conflict with Shelby county or Fayette county and the board will have to decide which of these it will be. The Shelby county fair has always followed the Rush county event and the directors there will hardly consent to changing their date.

It is not believed that the directors of the Fayette county fair are in favor of holding the two fairs on the same week and it is possible that an agreement will be reached. One of the officials of the local fair stated today that he believed the Rush county fair could better compete with Fayette county than Shelby, if the local association was compelled to take the date first named.

The local fair formerly was a member of both associations, but last year dropped out of the eastern Indiana circuit when the stake race plan was adopted that would insure a circuit of eight straight weeks of racing. The southeastern circuit is one of the best in the state in that it has eight weeks of continuous meetings and the short distance to ship from one point to another is a great advantage.

It was pointed out today that since so many Rush county people attend the Fayette county fair, that fair could not afford to compete with Rush county. In event that the fairs are held on the same week the attendance at both would most certainly be cut down. The attitude of the Fayette county officials is not known, but it is believed that the difficulty can be adjusted to the best interests of all.

Several members of the fair association here stated that they did not see how Rush county could very well compete with Connersville since the Fayette county fair was a free fair. The opinion was about equally divided, some believing that Connersville should select a new date as the Rush county fair has always been held the last full week in August.

## WALKED IN AND RIGHT OUT

(By United Press.)  
Evansville, Ind., Jan. 15.—George Henry Fink, 40, assistant bookkeeper of Hercules Buggy Company, quietly walked into the company's office this morning, picked up the pay-roll of \$17,000 and escaped with it. Fink was later captured at Booneville.

## COMING EVENTS ARE DISCUSSED

Chamber of Commerce Directors Make Final Preparations For Corn Show and Short Course.

A FARMERS' DINNER ALSO

Special Committee is Appointed for Good Factory Proposition Which Has Been Offered Rushville.

A good part of the time of the monthly meeting of the board of directors of the Rush County Chamber of Commerce Friday was devoted to a discussion of the work of the Community Welfare League, recently organized in Indianapolis, with its representative, Dr. John Welsh, but the directors dismissed the proposal for the League to work here without any final action.

Steps will be taken at once to conform with the by-laws regarding the annual meeting of members and the election of a new set of directors. The by-laws say a committee of seven members shall be appointed to nominate the directors to be voted on at the annual meeting, to be held the second Tuesday in February, which this year falls on February 8. Ten directors retire February 8, after having served two years, and ten will be elected to serve in their places. The committee on nominations will be announced in a few days.

The president appointed, on motion of the directors, a committee composed of the president and Wilbur Stiers and Will O. Feudner to investigate a proposition to locate a factory in Rushville. The offer of this particular concern sounded so good that the directors thought it would be wise to make inquiry concerning the assertions made.

Final preparations for the corn show, farmers' short course and farmers' banquet were discussed at length by the directors with the committee chairman who were present. It was decided to hold the corn show in the sheriff's office in the court house. The date will be next Saturday, January 22, as previously announced and all entries must be made by two o'clock in the afternoon. One of the conditions is that the corn be allowed to remain on display until Wednesday afternoon, January 26 at four o'clock until the short course is over. A corn expert from Purdue university here for the short course will do the scoring. Cash prizes of thirty-five dollars and approximately that amount in merchandise will be offered as prizes.

Great things are expected of the farmers' dinner at the close of the short course which will be fathered by the Chamber of Commerce. The banquet will be given in the Graham Annex auditorium at six o'clock on Wednesday evening. Special committees were appointed last month and have been at work arranging for the banquet.

At the suggestion of the president and on his motion, the directors voted to send the secretary to the annual meeting of the Commercial Club secretaries at Martinsville next Tuesday.

—Joe Turf of Manila transacted business here today.

—Dave Drury of Clarksville was in the city today on business.

—John H. Vernon of near Gowdy has gone to Martinsville to take treatment for rheumatism.

—Mrs. P. H. Chadwick went to Pleasant Lake this morning to attend the funeral of Mrs. F. H. Chadwick, which it to be held there on Monday.

## AMERICANS FLEE FROM MEXICO TODAY

Threats of Bandits to Exterminate United States Citizens Cause Them to Leave Hurriedly.

SPECIAL TRAIN CARRIES 150

(By United Press.)  
El Paso, Jan. 15.—Americans were fleeing from northern Mexico today. Threats of bandits to exterminate the foreigners, the murder of a total of 20 Americans and one Englishman in Shihuahua within the last week and the state department's appeal to Americans to leave troubled districts are having their effect.

A special train sent from El Paso was returning from Parral, a mining town in southern Chihuahua, with about 150 Americans, including many women and children.

## DAMAGE SUITS MAY NOT BE TRIED

Likely Cases of Mr. and Mrs. Gunning Against Dr. T. C. Waltermire Will be Dismissed.

THEIR ATTORNEYS WITHDRAW

Violet Hendricks is Granted Divorce From Elmer Hendricks—Three Suits Dismissed.

The petit jury will not be needed Monday in circuit court, as originally announced, and according to present plans will report next Saturday. The case set for trial Monday was the damage suit of Alma W. Gunning against Dr. T. C. Waltermire of Manila. Events this morning indicated that this suit and a similar suit of Mrs. Gunning's husband, W. R. Gunning, against Waltermire would be dismissed. Kiplinger and Smith and Isaac Carter, attorneys for the Gunnings, withdrew their appearance and without any attorneys the cases will likely not come to trial.

Both cases were for \$5,000 damages for personal injuries alleged to have been sustained in an automobile accident and caused through the negligence of Dr. Waltermire. The disposal, if not the dismissal, of the cases is now expected.

Violet Hendricks was granted a divorce by Judge Sparks from Elmer Hendricks upon payment of the costs. Mrs. Hendricks alleges cruel and inhuman treatment. The court gave her the custody of their minor child until further order of the court.

The case of George C. Schemmel against Francis M. Tague was dismissed by agreement at the costs of the defendant. It was a replevin suit in which the demand was \$25.

The case of the Home Insurance Company against Alva A. Newsom, on notes, demanding \$105, was dismissed and the costs paid. The case of Owen L. Carr against Leslie Alender on a note demanding \$540 was also dismissed and the costs paid.

A motion for a new trial has been filed in the damage suit of John W. Bever against the Indianapolis and Cincinnati Traction company. The motion for a new trial set out that the plaintiff has secured some new evidence which is material to his cause. The motion alleges that the woman who will testify at the trial if a rehearing is granted was ill during the first trial and could not be present. When the case was first heard the jury found for the defendant company.

Amianthine Cloth.

The finest variety of asbestos is known as amianthus, and the most beautiful specimens of this come from Tarentaise, in Savoy. Hence the fabric woven from asbestos is sometimes known as amianthine cloth. Charlemagne is said to have had an amianthine tablecloth, which he once ordered to be thrown into the fire for the entertainment of his guests.—London Standard.

Mother Carey's Chickens.

"Mother Carey's chickens" is a nautical name for stormy petrels, those tiny, webfooted birds which sailors regard with such awe. When a storm is imminent they collect under the stern of a ship, and superstitious seamen believe they follow vessels with the intention of picking up the souls of wrecked sailors and carrying them to heaven.

Taking a Chance.

"I want to help you," said the fussy man, "but if I give you a nickel I'm afraid you won't put it to good use."

"Well," replied the philosophic tramp, "a nickel ain't enough ter do much harm wid, or much good, either, so take a chance, gov'nor."—Birmingham Age-Herald.

His Business.

"That baker is the most valuable man we have in the place, always ready to back up any movement with a cash contribution."

"But, then, you know it is a baker's business to be always ready with the dough."—Baltimore American.

HOW TO SELL THINGS THAT ARE "FOR SALE"

Write your "For Sale" ad SIMPLY stating every detail about the article that you would want an ad to give if you were anxious to buy something of the kind yourself. Give a little thought to the "selling points" about the article, and put THEM into your ad. Then run the ad MORE THAN ONCE, if that is necessary. It may or may not be.

Buy Advertised Brands — They're Best

"Trade-marked" articles—things sold by NAME or DISTINGUISHING and IDENTIFYING BRANDS—must be kept at the highest standard of quality. The VALUE must never vary. For a maker to "cheapen" such an article would be to throw away the prestige he had fought so hard, and advertised so effectively, to gain.

## Things You Don't Know.

We of today often admire the knowledge displayed by our friends and our neighbors, and occasionally we may entertain a slight conception of that which we ourselves possess.

But we are not prone to speak of or to admit of these things that we don't know.

For instance—

You don't know when the war will end.

You don't know which side will be the victors.

You don't know what conditions will prevail in Europe after it is ended. You may surmise, but you don't know.

You don't know what effect it will have on this country when Europe gets down to business again.

You don't know whether the end of this year will mark the beginning of a world peace, or whether it is but the forerunner of a greater and more devastating conflict which will be waged between the old world and the new—between a combination of European nations on the one side, and North, Central and South America on the other.

You don't know, in the event of such a war, whether the Americans would continue to be free and self-

governed countries, whether they would become mere overseas possessions of the kings and emperors of the old world. You may poo poo, and swell out your chest, and let the eagle scream but you don't know. You don't know what congress will do in the matter of preparedness for this country. You don't know whether it will do anything at all or not—for, truth to tell, congress is all muddled up and don't know itself for it don't know what you think or what you know.

Fact is we don't imagine any of us know much of anything about this phase of our national existence, for we have been too busy grubbing for dollars to give much heed to the present of future welfare of our country.

And, too, we don't know what the penalty of our indifference and neglect is going to be.

If men's shadows were X-ray photographs—Phew! What would everybody think of everybody else!

The fellow who hides his light under a bushel is putting the bushel to poor use.

Kick yourself as much as you like, but never let the other fellow do the kicking.

Hail to the fellow who remembers to hail as

Another week's sins to answer for.

## REJECT OFFER OF SIR EDWARD GRAY

Germans Refuse to Submit Case in Which it is Alleged Crew Was Murdered to Americans.

## REPLY IS REPRISAL THREAT

(By United Press.) Berlin, (Via Sayville,) Jan. 15.—The German government today rejected the suggestion made by Sir Edward Grey, British foreign minister, that the Baralong case, in which officers of a British steamer were accused of the murder of a German submarine crew, be submitted to an investigation by a court of American naval officers.

The text of the German note transmitted to Great Britain through the American embassy was made public here today. It denied British charges that German soldiers and sailors have been guilty of inhuman practices and informs Great Britain that Germany will adopt methods of reprisal for the alleged cold blooded slaying of the German submarine crew.

## HOUSE WILL TELL EUROPE OUR VIEWS

Goes as Wilson's Voice to Promote Better Understanding.

## NOT ON MISSION OF PEACE

Nor Will He Reprimand Any Diplomats or Intrude in Their Fields of Activity. Foreign Leaders Acquainted With Purpose of His Visit Eager to Meet Him.

Colonel Edward Mandell House is off for Europe for a visit of six weeks or two months in London, Paris and Berlin. He goes as the representative of President Wilson, and as such he will visit both the American embassies in those cities and the statesmen at the head of affairs in all three nations.

Many reports have been printed concerning the object of his trip, but the following facts are said to be most authentic:

Colonel House's mission has only one purpose, and it is not to sound the nations on the subject of peace, to interfere in whatever bickerings there may be among American diplomats, to stir up the Lusitania case or to go any of the various things which he has been credited. His mission is the first step in an attempt at a better and closer understanding between the European nations and this country, to the end that misapprehension of our attitude and views and actions may be measurably avoided in the future.

That the need for such a mission or for some other step to bring about such an understanding was felt in Berlin as well as in Washington was strikingly shown in a Berlin dispatch of Dec. 20, in which these expressions appeared:

An American in Germany is soon aware that the obstacles in the way of mutual understanding between the two nations are, in the first place, those of feeling, and secondly, those of facts. ... If the German government could speak directly to the American government alone, out of the hearing of the rest of the world, ... much misconception on both sides could perhaps be avoided. ... It would be hard to say at this moment whether Germany misconceives the American mind more than the United States misconceives the German mind.

## Conditions Same in England.

What is true of Germany is true in a different way of the allied powers, in spite of the fact that they have greater freedom of communication than the fortune of war has given to Germany. Not from our ambassadors can they get the full American viewpoint, because our ambassadors are themselves out of touch with what is going on here and with the fluctuations and changes in American sentiment necessarily produced by the constantly shifting events of the war.

In the dispatch already quoted the author spoke of what could be done if there could be "an exchange between the at once high and special powers." The mission of Colonel House comes as near being that as is possible. There cannot very well be a conversation between the president and the kaiser, but Colonel House's visit to the German foreign office will be the next thing to it.

It is important, however, to keep clear from the idea that Germany is the special object of Colonel House's journey. It is nothing of the kind, and it would be well within bounds to say that his visit to London and to Paris is even more important in the president's mind than that to Berlin in the way of giving needed information and setting the scenes right for future dealings.

## Not to Reprimand Diplomats.

All reports that Colonel House is going abroad to reprimand ambassadors for alleged failings are made out of whole cloth. The president does not regard it as due to any fault of these diplomats that they are out of touch with feeling in their own country. It is, he holds, the natural and inevitable result of their being away from the place where that feeling exists and due to no other cause. Even a month's absence makes a man lose touch, and these ambassadors have been away from one to two years.

Colonel House himself has been heard to say that when he last went abroad he stayed four months and was astonished on his return to find that he had himself grown out of touch with American feeling, and this is the reason why he has determined to make a shorter stay this time. He intends to stay only six weeks and certainly will not stay longer than two months. If even he noticed this difference in himself in so short a stay as four months the president believes that no ambassador is blameworthy for showing the effects of the same thing after an absence of two years.

## LIMBURGER CUTS DEATH RATE

Wisconsin Physician Finds Eating of Famous Cheese Healthful.

Physicians of Green county, Wis., which had the lowest death rate in that state last summer, attribute the healthy condition of the community to the eating of Limburger cheese.

Last year 3,041,445 pounds of this cheese were produced in the county, and as a staple of food it largely displaced meat.

The quarterly report of the state board of health, just issued, gave Green county a death rate of 7.2 per thousand compared with 9.2 for the state at large.

## GRAY OPPOSES DEFENSE PLANS

Sixth District Representative Shifts Position Since Recent Promise to Support Wilson.

## OLD PLEDGE PIGEON-HOLED

Richmond, Ind., January 15.—A Washington newspaper dispatch contains the information that Representative Finly H. Gray of the Sixth Indiana district is again out of harmony with the views of his constituents and the policy of the national administration on the question of preparedness for national defense. Gray announced his opposition to the construction of more large first-line-of-battleships. He is a member of the house naval affairs committee and from the first has advocated a "little" navy program although recently, under pressure from his constituency, pledged support to the Wilson naval program calling for two dreadnaughts, two battle cruisers and a number of submarines, to be constructed this year. Apparently he has now pigeon-holed this pledge.

# Why the German Fleet Does Not Come Out and Fight

The taunts of the English press about the inactivity of the German fleet seem to have aroused the German editors to set before the people of the Fatherland the work which the Kaiser's battleships have done, and are doing, in the war. Three of the most influential papers in Germany have simultaneously devoted no small amount of space to "special reports from the High Sea Fleet."

In THE LITERARY DIGEST for January 15th is printed translations of the most significant parts of these reports. The article is illustrated by a photographic reproduction of a painting made for the foremost illustrated paper in Germany "To Show Patriotic Germans a British Cruiser in Flight." These articles in this issue of "The Digest," also hold great interest for the American public:

## MOST MURDEROUS CITY IS MEMPHIS

Leads All the World in Number of Homicides.

63.7 SLAIN IN EVERY 100,000

Seven Southern Towns Held Unenviable Record of Heading the List. Charleston, Savannah, Atlanta, New Orleans, Nashville and Louisville Follow in Order Named.

The most "murderous" city in all the United States is Memphis, Tenn., where 63.7 persons out of every 100,000 lose their lives by violence, according to statistics for the decade 1904-1913, prepared by the Spectator, an insurance journal, in an article on the "Homicide Record of 1914."

Six other southern cities hold records for "killings," while New York city—Manhattan and the Bronx—with its enormous population, is a peaceful, law abiding place, ranking only sixteenth out of the thirty registration cities used.

Murder is not only increasing at an alarming rate throughout the country, but statistics show that the predominating method in American murders is by firearms.

A state of lawlessness and indifference to human life is shown in Tennessee, South Carolina, Georgia, Louisiana and Kentucky. The seven principal cities in these states have the unenviable record of leading the thirty American cities used as a registration area for the country.

### Cities' Comparative Record.

The thirty cities, arranged in the order of "killings," together with the rate per 100,000 of population, are:

Memphis, 63.7; Charleston, S. C., 32.7; Savannah, 28.4; Atlanta, 26; New Orleans, 25.3; Nashville, 24.3; Louisville, 16.6; St. Louis, 12.9; San Francisco, 11.8; Cincinnati, 11; Chicago, 9.3; Seattle, 8.1; Spokane, 7.8; Washington, 7.5; Cleveland, 6.1; Manhattan and the Bronx, New York, 6.1; Dayton, O., 5.5; Pittsburgh, 5.3; Providence, 5.2; Boston, 4.8; Baltimore, 4.8; Brooklyn, 4.5; Philadelphia, 4.2; Buffalo, 4; Minneapolis, 3.7; Reading, Pa., 3.5; Rochester, N. Y., 3.3; Hartford, Conn., 3; Newark, N. J., 3; Milwaukee, 2.4.

There were 11,981 homicides in the thirty cities for the decade, or an average of 7.9 per 100,000 of population for the whole area. The figures for 1914 show 1,489 murders for the same area, at the rate of 8.6 per 100,000 population, which, if continued for ten years, would make the total for the decade 14,890.

Assuming that the recorded murder death rate for the registration area may be safely applied to the whole country, more than 50,000 human lives have been deliberately sacrificed. The increase in murder during 1914 as compared with the ten years ending 1913 was most marked on the Pacific coast and in the southern states, the latter having always led.

The eastern cities show the murder of 4.9 persons out of every 100,000 population for 1904-13 and 5.1 persons for 1914; the central cities show 8.6 and in 1914 9.3, and the southern cities 18.2 for the 1904-13 decade, and 20.4 for the year 1914, and Pacific coast cities 10, and an increase to 12.8 for 1914.

### Firearms Chief Weapon.

Among males 62.5 per cent of the deaths were caused by firearms and among females 52.2 per cent, while cutting or piercing instruments caused 15.7 per cent and among females 12.7 per cent of the deaths. The mortality was highest between the ages of twenty-five and thirty-four years.

The reason for the increase in murder is given as the inadequacy of laws regarding deadly weapons.

"The means of murder are entirely too convenient," says the Spectator. "The pistol carrying habit in many sections of the country is an evil of the first importance."

The number of murders in the United States is about 100 for every 13 committed in England and Wales, 30 in Australia, 31 in Prussia and 56 in Italy.

### POLAND'S FLIGHT WORST.

4,500,000 Refugees Living in Holes and in Trees.

After inspecting all the countries in Europe that have suffered through the war on behalf of the committee of mercy W. H. Hamilton of New York says that Poland was in the worst plight by far.

"There is not a building standing intact," he said, "along the Russian lines of retreat. They even tore down the side of the cathedral in Warsaw to get out the bells to make ammunition with. When I was in Warsaw I saw 1,500 old men, women and children standing in a bread line with the temperature below zero to get the daily ration of a bowl of carrot soup and a quarter of a pound of bread. Many of them were shoeless and their feet were frozen so that they could barely move on them. The women had torn up their clothing to wrap round the feet of their children."

"There are 175,000 refugees in Warsaw and 4,500,000 altogether in Poland who are living chiefly in holes dug in the ground and in the trees in the forests."

## DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washings the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

## SAY THEY GOT RAW DEAL AT BROOKVILLE

High School Basketball Team Declares Whistle in Audience Was Confused With Referee's.

### LOSES BY A NARROW MARGIN

The local basketball team was defeated at Brookville last night by a score of 33 to 31. The game was one of the fastest ever played on the Brookville floor and while the Rushville team is not crying over the loss of the game, the entire team claims a raw deal on the part of the officials. Several alibis have been offered by the locals. The best one is that there was a whistle in the audience that was confused with the one held by the referee and every time this whistle was blown the local players would stop, and then Brookville would score.

The locals led at the end of the first half by a score of 22 to 17, and maintained this lead up until about three minutes to play. All through the last half Rushville was six points to the good and a little raw work is said to have beaten the team out of all chances to tie the score or win the game. Martin and Caron played well for Rushville. Caron was put out of the game after five personal fouls were called on him.

### CHURCH CHOIR BANQUET.

The cold wave that has had Rushville in its grip for the last two days had nothing on the members of the First Presbyterian church choir last night. As everyone knows the choir always delights lovers of good music with its programs, and it was decided to effect a permanent organization. As a means to an end, preparations were made to give the choir a dinner and an evening of mirth and jollity. Last night marked the culmination of the plans and covers were laid for thirty-six in the spacious dining room in the church basement. Promptly at half-past o'clock, Dr. D. Ira Lambert invoked the blessings upon the festal board and the merry party enjoyed a repast that reflected credit upon the ladies to whom was given the responsibility for its preparation. It was not just an ordinary collation, savoring of lunch or sandwiches, but an elaborate, bountiful dinner.

At the close Dr. Lambert was presented by the genial toastmaster, and in a very felicitous manner the pastor spoke on the good of such meetings and took occasion to express his thanks to the choir for what he said had been an inspiration to him in his pulpit labors. He prophesied even greater efforts on the part of the choir.

Dr. Barrington was called for, and spoke on the function of the banquet, dwelling especially upon the want of dignity that happily characterizes such events, illustrating his point with an amusing story of the pompous preacher whose vanity received a sudden and effectual check.

Mr. Trusler followed in his usual effective style, and spoke at length upon the necessity of organization in matters of church music. A permanent organization was made with B. O. Simpson, president, and Mrs. Simpson as secretary-treasurer. Dr. Barrington was made choir director and some twenty-five members of the choir pledged their loyalty to the new musical society, hereafter to be

known as the Rushville Choral Club. Arrangements will be made for the putting on of a most elaborate cantata for Easter and the public is promised something not seen or heard in Rushville. The beautiful production of Geibel's entitled "Light Out of Darkness" will be presented for the first time in Rushville on the night of April 23, and those who love artistic, spiritual music will have an opportunity of listening for one hour to a musical gem.

Much of the credit of the culinary success of the evening was due those capable church workers, Mrs. B. O. Simpson, Mrs. E. W. Barrington and Mrs. Floyd Hogsett.

### DEFECTIVE BATTERY, CAUSE

(By United Press.)

New York, Jan. 15.—One man is known to have been killed and others may have lost their lives when an internal explosion practically blew off the top of the submarine E-2 at the Brooklyn navy yards this afternoon.

Reports as to the number dead ran as high as five. Many were injured. Officers declared that it would be impossible to determine the actual casualties for some time. Some of the men lifted from the submarine appeared to be dead when carried out, it was stated.

A defective battery is believed to have been the cause of the explosion.

### Home of the Chinchilla.

The chinchilla, a little animal the size of a squirrel, is met with only in the Andes of Bolivia, Ecuador, Peru and northern Chile and is never found under a height of 9,000 or 10,000 feet. The Indians are eager trappers and hunters of it for its fine fur. The skins are well seasoned with salt and made up into small packages for dispatch to the towns, whence they are shipped abroad.

### Young Girls and the Stage.

Mrs. De Navarro, formerly Mary Anderson, our beloved actress, receives deluges of mail from all parts of the world asking her advice to young girls who would go on the stage. ## Stammerers Know This To Be True

STAMMERERS know how it feels to be regarded as "different" from other people—and to be laughed at. They know that their affliction sets them apart from all others who are normal. They know that stammering is a handicap which prevents their greatest success in business or their active participation in social affairs.

Stammerers know this to be true—but most stammerers are just finding out that they can be permanently freed from stammering—that it is no longer necessary to be burdened with such an affliction. Benjamin N. Bogue, founder and president of the Bogue Institute for Stammerers, was a stammerer for twenty years before, by study and patient work, he found the way to free himself. He had the same experience you are now having. It was necessary in his case, because there was no one then who knew how stammering could be stopped. But today, and in your case, it is absolutely unnecessary—for the one definite and proved way of stopping stammering is known and being successfully used every day at the Bogue Institute.

On page five of the seventy-page book pictured below, you will find the beginning of Mr. Bogue's story of his own experiences, and how he restored himself to perfect speech. And you will see that this is the method which he now offers you—a method which has restored perfect speech to hundreds of stammerers in all parts of the country.

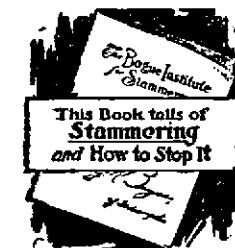

Pages forty to forty-four of this book tell what other students have accomplished at the Bogue Institute—of renewed happiness—of achievements in business and society that were previously impossible.

The results of stammering are shown, beginning on page twenty-two. On page sixteen you will find an explanation of the causes of stammering, and beginning on page thirty-one a discussion of the methods used at the Bogue Institute. You will also be interested in page thirty-eight, which shows how thoroughly the Institute protects the interests of its students. Persons under eight years of age, and those not of normal intelligence, are not accepted as students. The book will explain the reasons for this very fully. Write your name and address in the coupon below and mail it today to the Institute. The book (70) seventy pages will be sent to you promptly without cost.

That each person or taxpayer charged with taxes on a duplicate in the hands of a County Treasurer may pay the full amount of such taxes on or before the first Monday in May, or may at his option, pay one-half thereof on or before the first Monday in May, and the remaining half on or before the first Monday in November, in the manner prescribed by law. All road taxes to be added to the first installment. When the first installment is not paid prior to the first Monday in May, the taxes for the whole year become delinquent. The Treasurer will not be responsible for the penalty and charges on delinquent taxes resulting from any omission of the person paying to state definitely on what property, in whose name and in what township or corporation it was assessed. Persons owing delinquent taxes should pay them at once. The late law is of such character that there is no option left the Treasurer but to enforce the collection of delinquent taxes, however much he may regret to collect the same, by sale of property. The owner of the property on the first day of March in any year, shall be liable for the payment of all taxes of that year. The purchaser of property on the first day of March shall be considered as owner on that day.—Sec. 100. All property, both personal and real, situated in any county, shall be liable for the taxes, penalties, interests, and costs to the owners thereof, in such county, and no partial payment of such taxes, penalties, interests or costs shall discharge or release any part or portion of such property until the whole be paid; which lien shall in no wise be affected or destroyed by any sale or transfer of any such personal property.—Sec. 644, R. S.

The Treasurer has no option in rebating the penalty on taxes allowed to go delinquent. Taxpayers are particularly notified that all Road Tax is due and payable with the first installment. No County Orders will be paid to persons owing delinquent taxes and all parties are warned against buying the same. The Annual Sale of Delinquent Lands and Lots will take place on the Second Monday in February, 1916.

## CLORE IS NOT AFTER MACHINE

Anti-Machine Candidate For Democratic Nomination for Governor to Ignore Personalities.

HIS PRINCIPLES YET SECRET

Neither he nor Adair Make Known Their Platforms—Pattern After Blue Jeans Williams.

Indianapolis, Jan. 15.—Leonard B. Clore, who wants to be Indiana's farmer governor, isn't gunning for the so-called "machine." Personalities will be kept out of the Democratic primary contest to end March 7. If there is to be a difference of principles it is not yet known, for neither John A. M. Adair nor Clore have announced as to state principles.

In an interview given the United Press today Clore said:

"I can escape being known as the 'anti-machine' candidate, but down deep in my heart I know this is not true, because I have never devoted my energies to fighting the fellows who don't agree with my ideas."

Clore's backers think he will run especially strong against Adair in the rural districts and that primary votes in large numbers will be cast for him in LaPorte, Johnson and Tippecanoe counties, where he is particularly well known.

"I am a candidate for governor, and I feel it is a laudable ambition," said Clore. "I hope to deal with the great problems as they confront me, proval of the best things in life. I in a way that will meet with the approval of the people in an agricultural way in every county of the state, having been connected with the various agricultural trains and having lectured at farmers' institutes. I have judged many agricultural contests."

"It is my chief ambition to follow in the footsteps of Blue Jeans Williams and Claude Matthews."

Clore's remark that he wished to "deal with the great problems as they confront us," was taken by an element among the anti-Adair Democrats as meaning he will not announce on state issues. A conference of Democrats who expect to back Clore was held at the Severin last night and it is believed a strong effort was made to persuade Clore to speak out concerning a constitutional convention, woman suffrage and prohibition.

## JUNK PILE FOR MOTOR ROUTES

Wayne County Rural Mail Patrons Are Disgusted With Radical Changes in Their Service.

URGE RETURN OF OLD METHOD

W. D. Foulke Makes Caustic Arraignment of Congressman Gray For Playing Politics.

The kaleidoscope of the motorized rural route wrangle up in Wayne county has moved fast in the last few days. The Richmond Item asked the rural route patrons to petition Washington for better service, using blanks in the Item for that purpose. William Dudley Foulke, a civil service reformer, comes forth with a statement accusing Congressman Finly Gray of playing "petulant" politics in the appointment of the new carriers. Now, since Postmaster Beck, at Richmond, in an interview, has advocated that two more routes be added to the Richmond postoffice to relieve the mud, it develops, from statements by rural route patrons all over Wayne county, that the service is not only badly muddled on the routes of Richmond but the same condition obtains all over Wayne county.

Ward E. Eliason submitted an article to the Richmond Palladium in which he suggested that motor routes be relegated to the junk heap. He says that on the western part of Route A, out of the Richmond postoffice, "there has been no delivery since a week ago today" (Thursday). He says the general opinion of the people in his neighborhood is that the motor route is a complete failure and adds: "Would like to enter a kick that would land it over the fence into the junk pile of costly experience and establish again the old system for they want the daily paper before it is a week old, and all first class matter at the earliest possible moment."

This is only one of many similar sentiments that have been expressed by the rural route patrons of Wayne county. The Richmond Item prints the statements of eighteen patrons who say that they either have not received any mail at all for several days or else when they do get their mail, it is from two to eight hours later than when the horse-drawn vehicles were used and there were more routes.

Mr. Foulke makes a very caustic arraignment of Congressman Gray. He reviews the cases of the carriers released and the new ones appointed and asserts that it was purely a scheme to build political "fences."
